Objective

To obtain a Frontend Developer role where I can leverage my expertise in React.js, JavaScript, and building responsive, user-friendly interfaces to create impactful web applications while continuing to grow as a developer.

Summary

Software Engineering student with a passion for frontend development, specializing in React.js and JavaScript. Skilled in problem-solving and creating responsive, user-friendly web applications. Excited to join a dynamic team where I can apply my skills, learn from real-world experiences, and grow as a developer.

Education

University of Agriculture, Faisalabad

- **Bachelor of Science in Software Engineering** (Expected May 2027)
  Current GPA: 3.64

PJSC College, Khurianwala

- **ICS** (2023)

Experience

1. Intern - Frontend Developer | NN Software House

(September,2022 – August,2023)

Technical Contributions:

- Collaborated on frontend development, implementing UI enhancements to improve website usability, aesthetics, and responsiveness.
- Actively contributed to addressing PHP and SQL database issues, assisting in improving backend functionality and enhancing the overall user experience.

Skills

- **Frameworks and Libraries:** React.js, Bootstrap, WordPress
- **Programming Languages:** PHP, JavaScript
- **Version Control:** Git, GitHub
- **Front-end Technologies:** HTML, CSS
- **Other:** Problem-Solving, Scalability, Teamwork

Projects

1. **Personal Portfolio:** Developed a fully functional portfolio website showcasing my web development skills using React.js.

Link:

2. **JavaScript Projects:** Created various JavaScript projects to enhance logic building and gain hands-on experience with the technology, including building interactive web applications and solving complex problems.
